SATVIK BHARTI

Full Stack Developer

ABOUT ME

Results-driven Full Stack Developer with demonstrated expertise in building scalable, production-ready web applications using the MERN stack and Next.js. Proficient in JavaScript, React.js, Next.js, Node.js, and MongoDB with a focus on implementing secure authentication systems, designing RESTful APIs, delivering responsive user experiences, and real-time communication features. Seeking opportunities to contribute technical excellence in Full Stack Development, Frontend Development, or Backend Development roles.

RELEVANT EXPERIENCE

Social Media App (MERN Stack) Present

Full Stack Developer | [Live: https://ping-up-eight-self.vercel.app](https://ping-up-eight-self.vercel.app)

- Built a full-stack social media application with secure authentication, real-time messaging, and notifications.
- Implemented posts, likes, comments, stories, user profiles, and follow system functionality.
- Developed REST APIs, optimized MongoDB queries, and deployed a responsive React.js application on Vercel.

URL Shortener (Next.js Application) Present

Full Stack Developer | [Live: https://bitlinks-url-shortner-woad.vercel.app](https://bitlinks-url-shortner-woad.vercel.app)

- Developed a URL shortening platform using Next.js and MongoDB for efficient link management.
- Implemented custom short URL generation with optimized database operations.
- Built RESTful APIs for URL creation, retrieval, and analytics with robust validation.
- Designed a responsive, mobile-first UI using Tailwind CSS and deployed for high performance.

Password Manager (Full Stack App) Present

Full Stack Developer | [Live: https://password-manager-red-mu.vercel.app](https://password-manager-red-mu.vercel.app)

- Developed a password management application with complete CRUD functionality for credential management.
- Implemented secure password handling and local storage integration for efficient data access.
- Designed a responsive user interface optimized for desktop and mobile devices.
